

VISION AND MISSION OF NATIONAL KIDNEY FOUNDATION OF MALAYSIA

--VISION--

To be a one-stop National Resources Centre for the prevention and treatment of kidney disease.

--MISSION--

- » To save lives through preventive education and early detection of kidney disease, while providing a second chance through haemodialysis for those suffering end stage renal failure;
- » To promote organ donations, kidney transplants and medical research into kidney diseases;
- » To ensure the continued good health and well-being of our patients through a holistic care concept.
